

ORLANDO AND SONNINO TO RETURN TO FRANCE

PLAN GALA DAY FOR COMPANY G. ON RETURN HOME

Mayor Smith to Name Committee Tomorrow Evening.

Plans for a great reception for Company G, now a part of Battery C, 123rd Field Artillery, 33rd Division, when that organization returns to Dixon after over two years in the service of the country, during which it rendered a truly wonderful accounting, will be started at tomorrow evening's meeting of the city council, when it is expected Mayor Mark Smith will name committees to take charge of the celebration. It is understood the mayor has received the promises of some of the best booster-workers in the city to help on the committee and that with its appointment tomorrow evening active preparations can begin at once for a celebration which will show the boys of Company G that all of Lee county is proud of them.

For several weeks it has been felt by a number of the "live wires" of the city that arrangements should be started for a big day when Company G comes home, and finally Mayor Smith was asked to start the ball rolling of officially by appointing a committee to plan the affair. He has consented to do so, and it is stated that tomorrow evening will find the movement being given an official start by the city council.

Date Is Uncertain.
Naturally little can be determined upon until it is known when the division will arrive at Camp Grant and some

33RD DIVISION MAY REACH U. S. FIRST OF WEEK

Latest Dispatches Are That Division is on High Seas.

The Thirty-third division, of which the old Sixth Illinois, including Company G of this city, is a part, may land in New York next Sunday or Monday, according to latest advices from overseas, in which case they may be home by the end of the month. News of their probable early arrival in the states is contained in the following dispatch from Diekirche, Luxemburg, in Sunday's Chicago Tribune:

"Word comes back from Brest today that the entire 33d division may be on the Atlantic as early as Monday and probably will begin landing in the United States about May 11. Reports indicate the train movement to the coast has been smooth, the maximum delay of any train so far being four hours. But even with this delay the entire journey from Luxemburg was made in less than seventy hours, and the schedule is sixty-three and a half hours, and there is the good news of an early sailing date."

"The 33d, a good fortune, reached Brest just as a large number of transports were making ready to start westward. The 32nd was not as fortunate as it reached Brest between two ship movements. Therefore it suffered a longer stay in port. It is believed the longest stay of any 33d man there will be two days. Divisions to follow possibly will be even more fortunate. When the next one reaches Brest the entire camp there may be held only a few hours."

PAUL DIXON NOW HAS FINE POSITION

Paul O. Dixon, who is now in charge of the reclamation of shoes at the U. S. Army salvage depot at 39th Street, Chicago, to which he was transferred a short time ago from Marion, Ind., where he was inspector of army shoes, is here for a short visit with his parents, Mr. and Mrs. Henry C. Dixon. He will go to Camp Grant tomorrow to transact government business, returning to Chicago from that cantonment.

CHRISTOS IN SOLE POSSESSION OF CAFE

Through the purchase of the interest of his partner, John Pappas in the Colonial restaurant Saturday, Vaselios Christos du Ledis, who has been the directing head of the cafe since they purchased it, came into sole possession. He is now making plans for bettering the cuisine of the place.

Bobbie, son of Dr. and Mrs. L. R. Evans, who has been ill with catarrhal fever at the home of his grandparents, Supervisor and Mrs. J. M. McCleary, has recovered sufficiently to be taken home.

Lawrence McDonald returned home at noon today from Chicago, where he has been visiting with friends and relatives for several days.

Don't Desert Our Boys; Buy Bonds

Washington, 5:20 p. m. May 3. "Evening Telegraph, Dixon, Ill.
"I would be lacking in frankness if I did not tell you that the treasury department is apprehensive concerning the Victory Liberty loan. In view of this serious situation as secretary of the treasury and as a fellow newspaper publisher, I appeal to you to help impress upon your readers the urgency of subscribing to this loan by publishing in your editions of Monday the following message.

"The Victory Liberty loan campaign is two-thirds over but subscriptions have been reported for little more than one-third of the loan.
"Is it conceivable that the American people, who with heart and soul waged the fight for freedom, will permit this loan of victory and thanksgiving to fail?

"Our sons gave of their health, of their strength and of their lives that freedom might not perish. There are one and a half million American boys in France and Germany. Now that the war is ended it would be as reasonable for them to dishonor the nation by deserting the flag as of the nation to dishonor itself by deserting them. Is it a large thing that we are asked to lend our money to pay the cost of victory? Is American money less willing than American manhood?

"Let everyone of the millions who have bought Liberty bonds buy Victory notes and success is sure."

PEACE SUMMARY

By Associated Press Leased Wire
Italy's delegation to the peace conference will return to Paris in time for the ceremony of handing the peace treaty to the German plenipotentiaries.

This sudden change in the Italian situation was announced in Paris today. Premier Orlando and Foreign Minister Sonnino will leave Rome tonight and will arrive in Paris Wednesday morning. The Germans will be given the treaty at Versailles on Thursday.

As an indication that former relations with the conference will be resumed in full, the Italian ambassador to Great Britain, who is in Paris, has been delegated to represent Italy at the meeting today which will formally launch the league of nations.

Announcement that the Italian delegate will return came quickly after it became known that the council of three had dispatched a message to Rome. The nature of this message has not been disclosed officially.

The terms of the peace treaty will be made known to the smaller powers represented at the peace conference at a plenary session of that body which was called today to meet tomorrow afternoon at 3 o'clock in French foreign office.

PROPRIETARY STAMPS RECEIVED AT OFFICE

The first consignment of internal revenue proprietary stamps were received at the post office this morning for distribution. The stamps are of the one and two cent denomination and are to be used chiefly by druggists. There has been a demand for the stamps ever since the first of the month when the ruling provided that they should be put into use but the Dixon consignment was several days late in being forwarded.

SPECIAL MACHINES FOR CORSET FACTORY

A carload of special machinery is being unloaded today and delivered at the Gossard plant in the west end of the city. The plant, which has been idle for several months, will start up probably next month, turning out all of the hardware used in the manufacture of Gossard corsets. Several factories are operated by this company and hardware for all of these is to be furnished from the Dixon plant. Sam Gossard of Belvidere is superintending the equipment of the local plant.

PEACE TREATY TO BE PRESENTED TO ENEMY THURSDAY

Belgians Decide They Will Sign Pact as it Now Stands.

BULLETIN

By Associated Press Leased Wire
Paris, May 5.—A secret plenary session of the peace conference has been called to meet at 3 o'clock tomorrow afternoon at the French foreign office.

The session will be held for the presentation of the peace treaty to the smaller powers.

Italian Dispute Discussed
When the council of three met this morning no announcement was made as to the subjects to be considered beyond the statement that it would continue the general program of the recent session whipping the lesser details and loose ends of the peace treaty into final shape. It had already been reported when the body met, however, that some reply had been received from Premier Orlando to the communication sent by the council to Rome and the Italian question was, therefore, considered likely to occupy some of the time of the council meeting.

WORD FROM ORLANDO

Paris, May 4.—(Havas)—A long telegram from Premier Orlando of Italy was received last night by the council of foreign ministers. No information will be given as to the nature of this communication until the heads of the allied governments have been made cognizant of its contents.

The Austrian delegates who will come to Paris to negotiate the treaty between their country and the allies met at Vienna Saturday.

PRESENT TREATY THURSDAY

By Associated Press Leased Wire
Paris, May 5.—It is now certain, according to the French press, that the treaty of peace will be solemnly handed to Count Von Brockdorff-Rantzau, the German foreign minister by Premier Clemenceau at Versailles on Thursday afternoon.

What Treaty Contains

The contents of the first five chapters of the treaty have already been outlined, dealing with the preamble, German frontiers, territory changes, German colonies and the military, naval and aerial features of the pact. The sixth chapter will define the status of prisoners of war and the seventh will concern the responsibilities of the former.

NEGROES' INTEREST IS NOW RELIGIOUS

R. E. Johnson and R. E. Lucas, negroes awaiting sentence for the murder of Charles Bush, also colored, at Nelson, on the evening of December 6, are looking at the more serious side of life. Johnson, who was reported Saturday as being ill and was attended by a physician, is considerably improved. He complained of having contracted a severe cold while being taken from the county jail to the court house during the progress of his trial.

W. S. Leslie called upon the two negroes last evening in the cell room at the county jail and conducted divine services. Both were very attentive throughout the address and prayer service and this morning were presented with bible by Mr. Leslie.

Lucas is anxiously awaiting answer to some of the telegrams and letters sent out by him after the jury returned their verdict of life imprisonment in his case. One of those to whom he has written has been answered and reported that he would be unable to visit Lucas here.

DIXON WOMAN, BRIDE OF FEW MONTHS, WIDOW

(Special to The Telegraph.)

Mt. Carroll, May 5.—L. A. Petty, assistant cashier of the Mt. Carroll bank, who on March 21 was married to Miss Gertrude Castle of the Grand Detour Plow Works' office force at Dixon, passed away unexpectedly at the Mt. Carroll hospital at 9 o'clock this morning, death following an emergency operation for appendicitis, with which he was taken ill Thursday. Following his sudden attack he was rushed to the hospital and as soon as possible the surgeons operated on him, but he could not stand the shock of the operation, and passed away this morning. He leaves his wife and four children by a former marriage. Funeral services will be held here Wednesday. Mr. Petty was at one time mayor of Mt. Carroll and was a prominent Mason.

1000 Volunteers to Embark on Tuesday

New York, May 5.—First contingent, 1,000 men, of the 50,000 troops volunteering to relieve an equal number of doughboys now with the American army of occupation in Germany, will sail for Europe tomorrow on the transport Agamemnon, it was announced today by the army embarkation authorities at Hoboken.

IF YOU HAVEN'T A PLACE FOR THEM, MAKE ONE.

BLAZE DAMAGES SEAPLANES FOR TRANS-SEA TRIP

U. S. Entries in Great Contest May Not Be Ready Tuesday.

By Associated Press Leased Wire
New York, May 5.—Fire at the naval air station at Rockaway Beach today damaged the naval seaplanes NC-1 and NC-4 which were to start tomorrow morning on the first leg of the trans-Atlantic flight.

The right wings of the NC-1 were completely destroyed and this plane may be unable to attempt the ocean cruise. It was believed that the NC-4 could be repaired in time for the "jump-off."

The blaze, which Commander John H. Towers, in charge of the expedition, declared was accidental, started from an electric spark which ignited gasoline on the NC-1. The flames enveloped the wings and spread to those of the NC-4, which occupied the same hangar. Air station employees extinguished the fire after slight damage had been done to the NC-4.

Commander Towers announced that the start for Newfoundland, where the trans-Atlantic flight is scheduled to begin, would be made tomorrow, weather permitting, with the NC-3, very likely with the NC-4 and possibly with the NC-1.

CHINA WILL GET SHANTUNG SOON

By Associated Press Leased Wire
Paris, May 5.—The policy of Japan is to return the Shantung peninsula in full sovereignty to China, retaining only the economic privileges granted Germany and the right to establish a settlement under the usual conditions at Tsing Tao. It was declared in a statement issued today by Baron Makino, head of the Japanese delegation at the peace conference.

IS RESTING WELL.

Reports from Amboy are to the effect that venerable John Halbmeyer, who suffered the amputation of both legs at the Division street crossing in that city Friday, is resting well, and the surgeon in charge holds out hopes for his recovery.

"IT IS A GOOD PEACE," CLEMENCEAU ASSERTS

French Premier Declares He Has Done His Best with Negotiations.

By Associated Press Leased Wire
Paris, May 5.—"I have done my best. I think it is a good peace."

"This declaration was made to the editor of the Figaro last night by Premier Clemenceau. The editor adds that from the details he has been able to learn, he is convinced that all France is weighing well the immense advantages she will gain from collaboration with Great Britain and the United States.

Alliance Beneficial
If it is a good peace, the editor continued, it is also a better one because it is an alliance with the two most powerful nations of the world.

Referring to the meeting of the French cabinet yesterday the editor says that after the peace terms were read by Captain Andre Tardieu, a speech was made by Premier Clemenceau, who outlined the efforts he had had to make, often under most difficult circumstances, to elaborate the text as it now stands. The premier also gave a complete statement on the negotiations with Italy over Fiume and on the latest dispatches exchanged with the Italian delegation.

Premier Clemenceau expressed the hope that Italy in the end would return to the side of the allies. The editor of the Figaro, says that the premier gave the cabinet council all the details of the efforts being made to bring the Italian delegates back to Paris.

SPARKS FLEW WHEN TROLLEY WIRE FELL

Considerable excitement prevailed for several minutes last evening at the north approach to the Galena avenue bridge when the trolley wire broke and fell across the tracks about 8 o'clock. The electrical display as the wire fell across one of the rails attracted the attention of a large number of people and it was necessary to guard the crossings to prevent a possible accident. The break was soon repaired and traffic resumed last night.

LAND BATTERIES OF ALLIES BEAT OFF BOLSHEVIKI

New Attack on Dvina River Near Vaga is Repulsed.

By Associated Press Leased Wire
Archangel, Saturday, May 3.—(Delayed)—The bolshevik flotilla on the Dvina again attacked the allied positions near the junction with the Vaga on Friday, but were driven off by the guns of the allied land batteries which outranged the weapons of the enemy.

RED FLEET BEATEN

By Associated Press Leased Wire
Archangel, Friday, May 2.—(Delayed)—Allied forces succeeded yesterday in repulsing the first attack by bolshevik gunboats on the Dvina. The enemy fleet attempted to approach the positions held by American, British and the Russian forces on the right bank of the river but failed, the allies having guns mounted which covered all parts of the channel. Artillery fire continues from both the river flotilla and the bolshevik batteries at Tulgas but up to this morning no allied casualties were reported.

Ice Breaks Up
The ice has broken up in the river near Archangel and although the channel is open, it is still very narrow.

PRIME MINISTER AND PARTY WILL COME WEDNESDAY

Italian Delegates Are Persuaded to Get Into Parley.

By Associated Press Leased Wire
Paris, May 5.—Vittorio Orlando, the Italian premier, and Baron Sonnino, the foreign minister, are to return to Paris, it is officially announced this afternoon. They will take a train from Rome for this capital tonight.

In the meantime it had been announced that Marquis Imperiali, the Italian ambassador at London, had been designated to participate for Italy in the meeting this afternoon of the executive committee of the league of nations.

The information regarding Premier Orlando and Foreign Minister Sonnino came from the Italian ambassador in Paris. He transmitted it to the French foreign ministry which immediately informed the heads of the allied and associated governments. The Italian representatives will reach Paris Wednesday morning, it was stated.

ITALY'S STATUS IN DOUBT

By Associated Press Leased Wire
Paris, Sunday, May 4.—(Delayed)—The status of Italy as one of the five great powers has been brought into question by her withdrawal from the peace conference, and it is this status which is proving a powerful lever in inducing Italy to accept the invitation of the council of three to resume her place at the peace table. The treaty of peace makes repeated reference to the five great powers as final authority in regulating many subjects and this provision

Resolutions have been adopted by 193 organizations, it was said, declaring in favor of the Paris peace.

Observations From "Over There"

Reconstruction problems of the United States as seen in Europe by an American legislator
One of a series of letters from the other side by Congressman William B. McKinley, of Illinois

BREST, France. —Here we are again at Brest after an absence of six months—but what a difference. This time we came peacefully and promptly into the harbor unattended. Last October we came over convoyed by six large ships, heavily armed and garrisoned by gunners who never left their posts for a moment; each passenger equipped with life jacket and provided with emergency rations while our ship was within the submarine zone. Then we went out of New York harbor escorted by airships with their watchful eye searching for lurking submarines and surrounded by torpedo boat destroyers which accompanied us for two days on our way across. This time the Great Northern, on which we sailed, steamed out of her home harbor absolutely care-free and when we sighted the harbor of Brest we were landed with none of the cautious formality that attended our arrival on the previous occasion.

Here at Brest I am now impressed by the difference between peace and war times. Then it was all for the soldiers and to win the war. Now the chief desire, both in the character of the cargo we brought to France and in official activities, is the thought for the women and children of these suffering countries.

The problem now is one of reconstruction rather than destruction. Then it was shells, powder and cannon we were rushing to France. Now it is food for the people of central Europe. Then it was steel made into instruments of war. Now it is steel made into plows and implements of peace.

Just as before, we see our soldiers in every direction. The tents at Brest capable of housing 65,000 men are still filled to capacity. When we saw them before these boys were anxious to get to Berlin, Germany, to lick the kaiser. Now they are longing to reach Berlin, Wis., or some other beloved city or hamlet in the good old United States to milk the cows, dig the garden and lick up the good old buckwheat cakes and maple syrup.

Our camp here at Brest has undergone great changes since the armistice was signed. The weather man is so busy raining on it that it never gets a chance to dry. But our engineers have built more than 100 miles of wooden sidewalks to conquer the worst of the mud. Every tent now has a wooden floor and stove. Our soldiers have that much comfort at least.

I asked a colored soldier from Alabama how he liked it. He replied: "Well, boss, you see I was glad to help fight the kaiser man, but it sho do rain in dis man's town dis wintah and I am plenty gladder when we goes back to Alabama."

Thousands of our colored boys—pioneer and engineer regiments they call them—are doing duty near these seaport towns making roads, handling boxes, unloading ships and doing all manner of work necessary to feed and care for an army.

In addition to our pioneer regiments, when the war closed we had 50,000 laborers working for our army in France. These men were brought from Spain, Portugal, Switzerland, Morocco and wherever they could be found, and in addition to them there were somewhere from 50,000 to 100,000 German prisoners employed at road mending, box handling and unloading vessels. They are still at work.

United States railroad equipment is everywhere in evidence here. Our largest type of locomotive marked "U. S." is seen standing side by side with the smaller French engines and the American freight cars loom up twice the size of the small French cars.

We hear in the United States considerable criticism of the lack of speed in returning our soldiers. The reason is apparent when one has opportunity to observe the transportation problem first hand over here. We all know that when the armistice was signed we had 1,000,000 men in France. Of these, 1,100,000 had been taken across by English boats and the remainder by French and American boats. Now we have to depend largely upon our own shipping to bring them back. We have returned to America in the past five months something over 500,000 men and still have aboard 1,400,000 soldiers of all kinds. It is going to be a slow task transporting them home but our soldiers are putting up with the disappointment of delay with the same bravery of spirit that was shown by them up in the front line trenches.

We go from here to Tours, the general headquarters, for supplies for our armies in France and thence to Paris, where I hope to write another letter. Tours is about 125 miles southwest of Paris and was selected as American supply headquarters after the bombs began to drop on Paris with such frequency and precision that it was considered good judgment to move our supplies further away from the firing.

PRIME MINISTER AND PARTY WILL COME WEDNESDAY

(Continued from Page 1)

would have to be changed to the "four great powers" in case Italy remained out of the conference.

Problems incident to the disposition of the German colonies are left by the treaty to the great powers, so that if Italy does not resume her place the treaty would exclude her from participating in the disposition of the colonies either directly or as a mandatory.

The text of the treaty has been delivered to the printer, with the exception of some small details which can be revised when the complete printed draft is ready. Owing to the doubts as to Italy's status, the protocol of the treaty will be prepared in two forms, one including Italy as a signatory and the other omitting her. Both these forms and the entire text of the treaty will be printed tomorrow.

Treaty Ready Tomorrow

President Wilson today expressed his belief to a number of the American delegation that the delivery of the treaty to the Germans could be made Tuesday afternoon, but this ceremony probably will go over until a later day to give the Italians time to return and to allow time for the adjustment of remaining questions concerning Belgium.

Thus far the printed text of the treaty does not include the provision on the responsibility of former Emperor William and others for the war, and the methods to be followed for their trials. This may be inserted at the last moment.

League Committee Meets

The executive committee which will launch the league of nations will hold its first meeting tomorrow. President Wilson or Colonel E. M. House will represent the United States; Lord Robert Cecil will appear for England; Stephen Picon for France; Premier Venizelos for Greece; the Spanish ambassador for Spain, and Dr. Epitacio Pessoa for Brazil.

Italy will not be represented. The organization of the league will be perfected, many committees appointed and plans probably will be drafted for the initial meeting of the league at Washington next October.

Austria Is Next

Those closest to President Wilson say that June 1 will without doubt be the date for the assembling of the extra session of congress.

The determination of the conference to begin the negotiation of a peace treaty with Austria immediately following the delivery of the treaty to the Germans has been made known to Italy. It is expected the Austrians will arrive toward the middle of May and plans for their accommodation at St. Germain are being made by the French authorities.

Whether Hungary will be asked to join the treaty will depend upon the outcome of the Austrian treaty there. It is feared that the Austrian treaty will be featured by the outlining of the boundaries of states newly formed from the old empire. The Bulgarian and Turkish treaties will follow but the time for summoning the delegates from those nations has not as yet been fixed.

PLAN GALA DAY FOR COMPANY G ON RETURN HOME

(Continued from Page One)

Idea is gained of the probable time of demobilization. If arrangements can be made to have the Company discharged as a unit at Camp Grant autos will be asked to bring the boys "home" in a body, in which case an all-day's celebration could be arranged for them, with parade, a big banquet, reception, etc. There is no doubt the people of Lee county will unite in acclaiming the heroes of the organization, which includes men from throughout this territory.

Company G was the only organization of Lee county men that answered the nation's call as a body; and they left home before the country was officially at war. Late in March, two years ago they left Dixon for Rock Island, a week before Congress declared war; and because there had been no declaration of war and because the war clouds did not appear so serious to the people of the community then the boys, who have since made a record which is surpassed by no other division in the service, were given no farewell demonstration. It is now planned to make the coming reception of such magnitude that the brave lads will know beyond all doubt that the community has been watching them hopefully in their trials, proud in their wonderful accomplishments, and sorrowfully in the loss of their comrade, Pvt. mer emperor and other Germans for the war. The eighth and ninth chapters will be devoted to phases of the reparations problems and financial clauses. The tenth will deal with economic clauses, the eleventh with ports, railroads and water communications; the twelfth will concern international labor legislation; the thirteenth will embrace guarantees and the fourteenth will contain general clauses dealing with ratification.

Marcel Huth of the Echo de Paris learns that the treaty will give absolute control of the mines in the Sarre valley and a guarantee for their exploitation. He says that the president of the administrative council will be Frenchman and will probably have executive powers.

BELGIUM WILL SIGN

By Associated Press Leased Wire
Brussels, May 5.—The Belgian government has decided to sign the treaty of peace which was discussed at a crown council held here last night, it is announced.

The council met at the palace at 8 o'clock and continued in session until midnight. Paul Hymans, minister of foreign affairs and head of the Belgian delegation at the peace conference, speaking for himself and for his colleagues, Emile Vandervelde and M. Vanderveken who remained in Paris completely outlining the situation and gave a review of the peace terms. He expressed the opinion that the treaty as it now stands gave honorable and satisfactory terms to Belgium and recommended that it should be signed.

Council is Unanimous

The council unanimously endorsed M. Hymans' view but was equally unanimous in expressing the opinion that the attention of the powers should be drawn to the financial and economic situation in Belgium and to the necessity that the allies assure Belgium of complete support looking to her economic restoration. The council was further of the opinion that the allies should be asked to support the initiation of negotiations with Holland regarding the settlement of the question of the freedom of the Scheldt and the waterways of the east Belgium.

He Understood.

3 MILLION CHILDREN JOIN SCHOOL GARDEN ARMY; ILLINOIS LEADS

Total for This State is 171,300 — Products to Bring \$100,000,000.

By Associated Press Leased Wire
Washington, May 5.—May Day enlistments in the United States school garden army brought the total number of children enrolled to nearly 3,000,000, including members in the United States, Hawaii and the Philippines. In announcing the total membership today, the bureau of education said it indicated that the 1919 goal of \$100,000,000 of foodstuffs produced on 100,000 acres of otherwise unproductive land would be reached. Fifty thousand teachers, it is said, are directing the army of children gardeners.

Illinois in Lead

With enlistments not yet completed in the northern states because of climatic conditions, Illinois leads in membership so far, it was said, with a total of 171,300 in 137 cities. Ohio is next with a total of 149,000 in 66 cities. Indianapolis leads the cities of the country in enrollment with 19,500, while Louisville, Ky., is next with 15,000.

Other state enrollments are: Texas 70,000; Missouri 45,000; Michigan 55,000; Wisconsin 30,750; and Kansas 40,000. Children enrolled in the school garden army in New Hampshire were said to constitute seven per cent of the entire population of the state. The membership in the Philippines has reached 7500.

Service flags, insignia and gardening instructions have been supplied to thousands of children by the United States school army through regional directors and assistants.

GERMAN-AUSTRIA CHARGES WILSON VIOLATES POINTS

By Associated Press Leased Wire
Basle, Switzerland, May 5.—The German-Austrian cabinet at Vienna has issued a manifesto in which it claims that President Wilson through his ranking known that he approved the treaty of London as far as the 22 concerned the demarcation of the frontier between Italy and Germany in Austria, which meant the annexation of the southern Tyrol, had acquiesced in a violation of the ninth of his fourteen points.

This ninth point, unlike the tenth says the manifesto, was not subjected to change in the notes issued at the time of the conclusion of the armistice. The document adds that the Italian claims to the southern Tyrol are founded purely on strategic grounds. These, it holds, do not justify annexation because, in the first place, the ethnographic frontier between the German and Italian Tyrol is in line with Italy's strategic requirements, and in the second place, because such annexation is contrary to the principle of self-determination enunciated by President Wilson in his speech at Mount Vernon July 4 last. It is pointed out that the German-Austrian government offered long ago to neutralize the southern Tyrol militarily, while retaining administrative and economic control of it, but that it never had a reply to this offer.

The manifesto concludes by declaring that if Italy takes the southern Tyrol, the remainder of the Tyrol would inevitably be absorbed by Germany with the result that German Austria would be cut off from the rest of the world except through Germany and, therefore, would be obliged to unite herself with Germany.

Shark-Food.

In Bermuda small ground sharks are used for food and much appreciated by all classes. The fish average from eight to ten pounds and sell for 12 cents each. In Honolulu the hammerhead shark is frequently seen in the markets and its flesh is considered very nourishing and is extensively salted.

Belgium Pained Over Selection of Geneva

By Associated Press Leased Wire
Brussels, Sunday, May 4.—(Delayed)—Replying to an address presented by delegates of patriotic societies today, Burgomaster Max said that Belgium had been painfully surprised by the fact that she had not been granted the "moral reparation" she had expected in the choice of Brussels as the headquarters of the league of nations. As to Belgium's other claims, the burgomaster said that she did not hold out her hand for aims, but asked just payment for the damages she had suffered. The burgomaster of Antwerp made a patriotic address there. Telegrams were sent to Paul Hymans, the foreign minister at Paris, and to Premier Delacroix.

At Ghent there also was a demonstration and the burgomaster was handed an address signed by representatives of all political groups to be transmitted to the Belgian delegation at the peace conference.

Springfield Now Has Only Two Newspapers

Springfield, Ill., May 5.—The Springfield News-Record today announced that it has been purchased by the Illinois State Journal and the Illinois State Register, and will suspend publication with today's issue. It is generally understood that the price paid was \$100,000, a quarter of a million dollars. The suspension of the News-Record leaves the newspaper field at the Springfield News-Record, established in 1875, and the Evening Record, established in 1907. It was a member of the Associated Press.

Both the Illinois State Register and the Illinois State Journal are members of the Associated Press.

Mr. Stern, after announcing the sale of his paper, said he expected to engage in newspaper publication in a large field.

D. A. R. ELECT—

A goodly number of "Daughters" attended the May meeting of the Dixon chapter, D. A. R., held at the home of Mrs. Lewis Paton on Saturday.

The regent, Mrs. Dyrast, called the meeting to order at the usual hour.

Salute to the flag, the singing of America, and the repeating of the Lord's prayer several numbers on the piano.

Master Paul Brookner rendered several numbers on the piano, "The Pyxide's Delight" and "On the Boat," which were nicely executed and enjoyed by the chapter.

Other numbers which gave a great deal of pleasure were, "The Little Sunflower," and "The May Song," the latter given as an encore without piano accompaniment of the former.

Both were vocal selections given by little Dorothy Ellen Babin.

These young artists both demonstrated a great deal of talent.

The reports of the secretary, treasurer and Centennial committee, both for the month and the year, were accepted.

The report of the Centennial Congress, recently held at Washington, was given by Mrs. Judd. In it was shown the progress of the D. A. R. organization in its accomplishments on a large scale.

The election of officers of the local chapter followed, with results as given below:

Regent—Mrs. Collins Dyrast.

Vice Regent—Miss Pratt.

Recording Secretary—Mrs. Abner Barlow.

Flag Day will be observed by the members of the chapter with a meeting at Chula Vista, the home of Mrs. M. H. Vail.

After what proved to be a most pleasant afternoon the meeting was adjourned.

NELSON WOLD—

The marriage of Arthur Nelson, of Sioux City, to Miss Elizabeth Wold, daughter of Mr. and Mrs. Lewis Wold, of Rockford, former residents of this city, took place Saturday afternoon in Rockford.

Because of illness in the family of the bride, plans for a home wedding were abandoned and the ceremony took place in a Methodist parsonage in Rockford, the pastor, Rev. Mr. Smith, reading the service. The attendants were Clarence Nelson and Miss Stella Nelson, brother and sister of the groom.

The bride wore for the ceremony a blue Gorgeotte gown and carried white sweet peas. Her attendant wore a tailored suit. For the wedding trip, which includes a visit to Mr. Nelson's people in the southern part of Illinois, the bride wore a navy blue tailleur with hat to match.

Mr. and Mrs. Nelson will live in Chicago. Mr. Nelson, who has been office manager of a Sioux City sewing machine company, will follow the same occupation in Chicago.

The bride, a popular member of a number of clubs and organizations here was given a number of pre-nuptial showers while here on a visit with her sister, Mrs. Frank Foreman, the past week.

HELD ANNUAL SERVICE—

Services by the G. A. R. post and its auxiliary, the Woman's Relief Corps, so quietly held year after year for those who found eternal rest in watery graves during the Civil War, were yesterday given more than usual attention by the people of Dixon.

As the aged veterans of the post and the members of the corps followed the flag to the bridge where their ritualist

ceremony was held and flowers were scattered on the waters of Rock river in memoriam, spectators lined the sidewalk and filled the automobiles drawn up along the sides of the street and expressed their reverence of the flag and the veterans by lifting their hats. A group of school children, scattering apple blossoms in the pathway of the veterans, added to the sentiment of the scene, and to these the veterans touched their hats in appreciation.

HEALTH WEEK PLANS—

Throughout the State of Illinois from May 11th until May 17th there will be known a new endeavor to improve the conditions of every town in a sanitary way and this week will be called "Health Week."

The patriotic women of our state have inspired this movement and being natural housekeepers, they are the best fitted to practically plan a means for doing this spring cleaning on such a big scale that its effects will be felt state-wide, for the promotion of health and to perhaps exterminate many communicable diseases.

There are, too, other good reasons for cleaning up Dixon, as well as for every other town and city to enter into this work.

It will be a better place to welcome our boys coming home from service when we expect to welcome an important guest in our homes, they are made beautifully and spotlessly clean as a mark of regard and respect for the coming visitors, and so it must be with Dixon. We must make it as beautiful and clean as possible for the sake of the boys who are coming home. They are not accustomed in the camps they have left to see refuse of any description, dirty streets, or disorderly spots, where rubbish and papers are strewn.

The government of our country has worked out the effects of perfect sanitation upon the health of her army and has arrived at the most astounding proof that "cleanliness is akin to godliness," for cleanliness has meant that we have the healthiest, happiest, and most moral army the world has ever known. Since a camp within the confines of a thousand acres of land, containing from thirty to forty thousand soldiers can keep well and moral and happy because it is kept clean, let us try to see what the same methods will accomplish in Dixon.

Numerous committees have been organized to minimize the labor of doing this "health promotion" work and each day will have its particular features. The best part of this work will be the understanding that what benefits one benefits all, so every man, woman, and child will be ready as one person, to do his share.

Monday and Tuesday will be "clean-up" days and Tuesday night will be "bon-fire" night.

There will be something to read each night, of interest regarding "Health Promotion" week. Mrs. Z. W. Moss.

FRANKLIN GROVE GRADUATION—

Commencement of the rural schools in the vicinity of Franklin Grove will be held in the Presbyterian church at Franklin Grove at 8:30 o'clock on the evening of May 9th. The teachers are Misses Rosie M. Koenig, Ruth Scheffler, Emma Schulz and Jennie Harding. Harry Schaefer, Gladys Graves, Everett Feldkirchner, George Hall and Theodore Barthorn are the pupils who graduate. The following program will be rendered:

March—Miss Bernice Dierdorff.

Invocation—Rev. Wm. H. Manshardt.

Vocal Solo—Miss Althea Roe.

Reading—Miss Ruth Whitney.

Address—State's Attorney H. C. Edwards.

Clarinet Solo—Silas Yingling.

Presentation of Diplomas by County Supt. of Schools—L. W. Miller.

Benediction—Rev. Wm. H. Manshardt.

SOLD MANY DOUGHNUTS—

Over two hundred dozen doughnuts were made and sold by the members of Dixon Circle, Ladies of the G. A. R., Saturday, in what was formerly the L. E. Edwards store. Seventy dollars and fifty-eight cents was the amount taken in from the sales and of this about one-half will be cleared as all the materials were purchased. Among the amounts of materials used was fifty-three pounds of lard, and everyone knows that that would add a considerable item to the expense account. Buyers not only had the pleasure of carrying away the most excellent of doughnuts but could see them turn from white rings of dough to gold brown rings of toothsome goodness before their eyes. In fact the whole process of mixing and frying was carried on in the store.

PROGRAM POSTPONED—

Out of consideration to Mrs. Egler, who had prepared an interesting paper for the afternoon's program, and also for the absent members who would regret not hearing it, the program was omitted at the Saturday afternoon meeting of the Woman's club, since the disagreeable weather had made the attendance of members small. Some important business matters were, however,

AMERICA FIRST IN FASHION

War Has Brought Out Our Ability. Motion Picture Tells Story.

One of the most gratifying results brought about by the war has been the remarkable advance made by native designers. We may safely predict that it will not be long before our conception of feminine costume will be accepted on a par with the best Paris affords. Forced to rely upon our own resources, we have astonished even ourselves in the matter of smart wearing apparel. And this is nowhere better brought out than in the film called "That Well Dressed Look," which will be presented through the courtesy of the Wooltex Studio at the Family theater tonight.

From advance reports the production is a little gem in its way and is a splendid example of what can be done with motion pictures. It is not hard to guess what will happen when the girls left behind by our gallant boys view this picture.

Dress, always important in the female mind, has suddenly assumed overwhelming proportions with the coming of peace and is now the burning question. To be well dressed, to look her best, that is the one consuming passion of those who look forward to the time when Johnny comes marching home. Indeed by many it is considered a patriotic duty.

Family theater patrons are certainly to be congratulated on the novel and entertaining features of this unique Style Show, screened for their enjoyment by the genius of Hy Mayer, the famous artist, and a bevy of the smartest models in America.

Tonight at the Family theater.

TROOP ARRIVALS.

BUT WHAT WILL MARTHA SAY WHEN SHE KNOWS? was the thought that troubled his mind.

AN ACCIDENT DELAYS THE TRAIN UPON WHICH MRS. CARTER ARRIVES.

CHAPTER LXXXV.

Tears filled my eyes. I was tired, anxious for Mrs. Carter, and had waited so long that my nerves were all "on edge" as mother used to say. The thought that the man who had so kindly tried to assist me had heard Nell's unkind speech added to my pain. But of all he had said I was hurt the most, because he resented my calling Blanche Orton's home to ask for him. I had thought it made it look better if she knew I was aware he was often with her upon business, and he had repented it. Was it business after all, or had he been spending the evening alone with her, and remaining until 2 o'clock.

I brushed the tears away as I saw him returning.

"You better go home, Bab. I will stay and wait for Aunt. It may be another hour before they get in." Already he had forgotten his impatient words, and they had hurt me so.

"No, I will stay with you."

"Very well, but I can't stand here. Let's walk up and down, or go inside."

"I should prefer to walk."

We paced back and forth almost in silence for a while. Occasionally one or the other of us would mention his aunt and hope she was neither killed or injured. Then I could keep still no longer, so asked:

"Did you have a successful day, Nell?"

"No—not so very. Why?"

"I just wondered—that was all. Was Mr. Frederick at Mrs. Orton's tonight?"

"No! I tried to get him to go but he refused; acted like a fool. Said he didn't want to be mixed up with Tearable."

"Oh Nell, was he there?"

"Of course he was! and Connor too. Thompson also came in for a little while. I told Frederick he was to be there—he likes Thompson, but he wouldn't come, at least he didn't?"

In a tone of annoyance.

"Were there others there?"

"What are you driving at? Yes, there were others. Now let's drop the subject. Frederick might have done me a lot of good by just appearing on the scene for a few minutes. Don't talk about it. I am disgusted with him—a regular mollycoddle he is getting to be."

"Oh, Nell! no one could call a blunt, plain spoken man like Mr. Frederick 'a mollycoddle.'"

"Well something ails him. There comes a train now—perhaps it is the one." And he hurried me along until once more I was standing near the man who had tried to be helpful, and who had overheard Nell's disagreeable

THE BEDEVILED QUILBLERS.

In all seriousness the debaters of the
middle ages argued pro and con how
many angels could dance on the point
of a needle and whether the earth was
lower than the sea. They proved both
pro and con by their logic.

The distillers and brewers of this late
age of reason have slumped back into
the ninth century and rejoice in the
slump—as might be expected. The dis-
tillers' committee, in charge of the fig-
t against prohibition, has been informed
by eminent counsel that the states and
the federal government cannot enact
identical legislation to back up their
"concurrent power" in the enforcement
of prohibition. The distillers feel that
their case is proved. They will con-
tinue to distill.

In other words, the distillers doubt
the ability of Uncle Sam and a Hoosier
to agree on the methods of burying a
dead cat.

The liquor business is dead. The over-
whelming force of public opinion
killed it. The attempt to overthrow
that opinion, enacted into law—however
many flaws the technical quibblers
think they can pick in it—is like trying
to pry up the sea with a stick or pull
down the heavens with a fishhook, or
proving that the sea is higher than the
land.

But if the distillers can grasp a reas-
suring amount of quibbles and breath-
ing spell to distill a few more quarts
they will do it in spite of all law and
public sentiment.

The Middle Ages are still with us—
and bedeviled.

TO CHECK THE SPEED FIEND.

One of the problems that will come
with good roads, or rather, that will be-
come more acute with better roads, will
be country road speeding. A long
stretch of country pavement is a tempta-
tion to the man with a powerful car
and even now, on the short stretches of
pavement we have outside the city lim-
its, the roads are being made danger-
ous by the motorists who want the ex-
hilaration of a fifty mile clip.

A car being driven at an excessive
rate of speed has terrific possibilities
for destruction. It is a menace to every
vehicle or person it meets or passes, as
well as to its occupants. The driver
who does not know enough to slow down
when passing other vehicles must be
taught to respect the rights of others.

With the new proposed system of paved
highways it will probably be neces-
sary for the state or counties to provide
patrolmen, on motorcycles, to enforce
the state laws on speeding.

"In my old age I have no place to lay
my head," mourns King Ludwig of Ba-
varia. Now if the kaiser feels that way
somebody might suggest that he lay it
on a block.

Germany is luckily to get a chance to
buy peace on the installment plan. A
small payment down and the rest at
intervals is ideal. We have bought a
lot of things we didn't want that way
because it was so easy.

The old-fashioned idea that what goes
up must come down doesn't work any
more. The profiteers refuse to recog-
nize the laws of gravity.

One man says he has spent days in
the big woods and never felt as lonely
as when going through a revolving door.

The only luxury they neglected to
tax in Washington was that of turning
over and going to sleep again on Sun-
day morning.

Swat the fly early. Swat him before
he becomes the great-grandfather of
five billion flies.

Germany's internal troubles are pain-
ful, they say. Well, they are not so very
painful to anybody outside of Germany.

It is said officially that high prices
are being continued without reason. So
is burglary and bank burglary.

HUNTING THEIR HOLES.

Many a dark cellar and remote oasis
of the earth will have to be ransacked,
and many a false whisker torn off, be-
fore the friends of the kaiser who are
scheduled for Allied courts martial are
brought to light. They will scurry to
the ends of the earth—if they can.

It is not conceivable that any one of
them will voluntarily offer himself to be
tried, as would any accused man who
believed himself innocent. Kultur has
no fondness for light.

Chicago papers continue to run Vic-
tory Loan Campaigns. The Telegraph
had a lot of these cartoons on hand
when Dixon and the majority of the
townships of the county had gone over
the top, so they had to go in the w. b.
Rich Chicago ought to get in the habit
of putting over some of this "small
town stuff."

General Leonard Wood is being

After relinquishing the telephone and
telephone lines and the railways from
government control, it might be a good
idea to turn the post office department
back to the service of the public.

It is pleasing to note that President

she never becomes an old maid. We
think this is a bright thought.

LAND BATTERIES OF ALLIES BEAT OFF BOLSHEVIKI

nel is still a mass of swiftly floating ice
cakes. It is only a matter of a few days
until the allied gun boats can force
their way up stream and go to the aid
of the allied land defenses.

On the Vaga sector the bolsheviks
suffered heavy losses yesterday when they
attacked the village of Bereznik. Mov-
ing to the north of the village, the bol-
shevik infantry attempted to penetrate
the allied wire entanglements. They
were completely repulsed, leaving 30 or
40 dead in front of the wire defenses
and more in the forest nearby.

Another allied force which attempt-
ed to cut the allied line of communica-
tions east of the Vaga also was repul-
sed. The allied casualties there yester-
day were only four wounded.

FINNS CONTROL PETROGRAD
By Associated Press Leased Wire
London, May 5.—Finnish Red guards
now are masters of the situation at
Petrograd, according to a dispatch from
Copenhagen to the Mail. They have ar-
rested members of the Danish Red
Cross in that city and it is reported they
intend to march against the Finnish
White Guards.

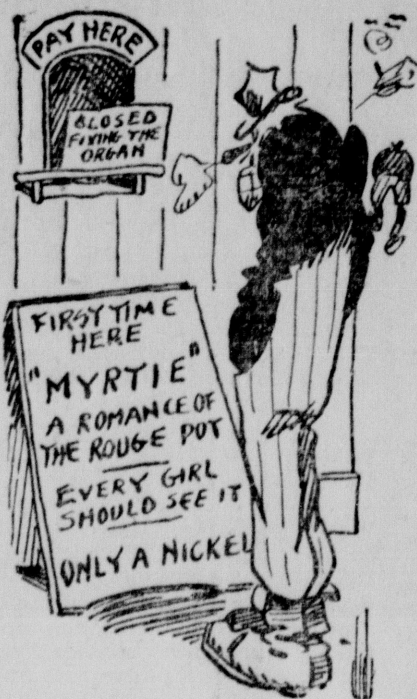

Reports were received Saturday from
Paris that Finnish forces had occupied
Petrograd but the identity of the troops
at the Russian capital was not estab-
lished.

Palestine's Salt Mountain.
Palestine possesses a remarkable
salt mountain situated at the south end
of the Dead sea. The length of the
ridge is six miles, with an average
width of three-quarters of a mile, and
the height is not far from 600 feet.
There are places where the overlying
earthy deposits are many feet in thick-
ness, but the mass of the mountain
is composed of solid rock salt, some
of which is as clear as crystal.

railroads to private owners under ade-
quate financial guarantees by the gov-
ernment, federal supervision and stabl-
izing or trade prices, new aspects in
the employment relations, revision of the
patent laws, systematic promotion of
re-employment for discharged soldiers
and sailors and greater rapidity in war
contract claims payments are some of
the important industrial topics which
will be considered at the 24th annual
convention of the national association
of manufacturers to be held here on

Curb Radicals Before Trouble is Warning

By Associated Press Leased Wire
Chicago, May 5.—Speakers at the
33rd anniversary reunion last night of
the veterans of the Haymarket riots
when seven police were killed and sev-
enty-one others were wounded by an-
archists, predicted that unless the rad-
icals are curbed at once serious trouble
will be encountered by police in large
cities.

Knotty Problem.
Here is a queer cause for a law
action. A man who was insane de-
termined to throw himself out of the
window of an asylum. He made sev-
eral attempts and was prevented by
the servants. Put in a new apart-
ment, he tried again, jumped out of
the window, fell on the lawn and in-
jured himself seriously, but, strange
to say, the shock cured his mental
disorder. At once he sued the officers
of the asylum for negligence. The
plaintiff was consulted.

New British Team to Enter Sea Flights

By Associated Press Leased Wire
St. Johns, N. F., May 5.—Another
British team of aspirants for trans-At-
lantic flight honors has entered the Lon-
don Daily Mail's \$50,000 prize com-
petition. Word was received today that
Captain Alcock, Pilot, and Lieutenant
Brown, navigator, left Liverpool May 3,
on the Mauritania.

Advises said also that the Handley
Page machine, another contestant, and
its crew have left Liverpool on the
steamship Digby for St. Johns.
Meanwhile, Frederick J. Raynham
and Harry G. Hawker, British rivals
here were uncertain this morning
whether they would start overseas to-
day. Reports from over the Atlantic
were slow in arriving.

Argentine Defeats Reds Demonstration

By Associated Press Leased Wire
Buenos Aires, Sunday, May 4.—(De-
layed)—Today's anarchist demon-
stration was a flat failure as a result of the
activities of the vigilance committees
which, in spite of the announced sus-
pension of the anarchist plans for a
manifestation, took up positions in all
the plazas to prevent informal gather-
ings.

Dr. Manuel Carles, president of the
Argentine patriotic league, which or-
ganized the vigilance committees, vis-
ited each committee during the day and
made a short address on Argentinean
traditions. Plazas which were known
to be selected as centers for demonstra-
tions were guarded by eight mounted
men armed with rifles.

VANGUARD OF 32ND DIVISION IS HOME

By Associated Press Leased Wire
New York, May 5.—Thirty-two offi-
cers and 606 men of the 32nd division
(former national guard of Michigan and
Wisconsin) arrived here today on the
steamship Cap Finistere from Brest.
Governor Albert B. Sleeper of Michigan
and Governor E. L. Philipp of Wisconsin
were here to welcome the soldiers of

the 64th infantry and the 127th infan-
try. These middle westerners are as-
signed mostly to Camps Sherman, Cus-
ter, Grant, Shelby and Dodge.

Also on board were the 169th base
hospital, eight officers and 175 men,
mostly from Camps Dodge and Pike,
the casualties, including 163 nurses—in all
1502 troops and nurses.

NEWS FROM DIXON

"Y" WILL HAVE BASEBALL TEAMS.

Plans are being made for one or

this summer, now that a field is avail-
able for games. There is much water-
l in the Y. M. C. A. membership for
good teams, and it is expected that some
good games will be arranged with out-
side teams. Tryouts will be held before
long and arrangements made to sup-
port a good team.

TWILIGHT LEAGUE COMMITTEE NAMED.

The committee to make arrangements
for the twilight baseball league this
summer has been selected as follows:
Dr. E. A. Clevidence, Martin Gannon,
Rev. E. C. Lumsden, Rev. J. M. Tid-

President A. R. Tearney, of Chicago,
was expected to be here for the open-
ing game.

GERMAN WRITERS ARE BITTER OVER FRENCH TREATMENT OF HUNS

Complain of Restriction Placed on Envoys at Peace Meet.

By Associated Press Leased Wire
Berlin, Saturday, May 3.—(Delayed)
—Newspaper men with the Germa-
peace delegation at Versailles are send-
ing generally conservative accounts of
their experiences, but Schuermann, the
correspondent of the German Gazette,
who wielded a trenchant, bitter pen dur-
ing war, does not disguise his disgust at
the treatment given the Germans in
the French. He devotes the most of
his report today to "the freedom of
movement" accorded the German dele-
gation, which he says is restricted to
mills.

He tells of a stenographer who sought
to purchase tooth powder at a drug
store and "nearly caused a diplomatic
breach," the incident ending with the
expulsion from the store. The write
says that American correspondents, "be-
lieving they could move about as free-
ly as they do in Berlin," tried to inter-
view a member of the German delega-
tion on its arrival, but were sharply
denied the privilege.

Schuermann complains of the high
prices, especially since the Germa-
mark must be transformed into francs
and says the charge for making the ex-
change is exorbitant. He closes by
saying: "Frenchmen are neither too
petty nor proud to do cheap business
with enemy delegates."

a chemist has produced an oil suit-
able for food purposes and a solid

As Sightseer, She Is Back In U.S.A. Though She's Living On the Rhine

The babies she has exclaimed over would fill a hundred nurseries. She has listened to more gossip in the last three months—not scandal, but discussions of the home affairs of other people—and heard the first names of more United States citizens than anyone from Maine to Texas. Yet she is 3,000 miles away, in Germany.

She is Mrs. W. F. Kelsey, of Oscaloosa, Ia., and Chicago, and the official Mother in the Y.M.C.A.'s big headquarters building at Coblenz. It is said that a Briton can think of more things to say about the weather than anyone else. Mrs. Kelsey's genius is for snapshots. Every doughboy carries a photograph of some sort—a charm against homesickness. Most of them have a pocketful, and these they show to Mrs. Kelsey as she mends and talks. The interest she takes in a picture of a group of people she never saw and never will, and the tact with which she listens to tales of their good luck and misfortunes have endeared her to thousands.

Her work is just a part of the anti-homesickness activities of the "Y" overseas. There are 13,000 doughboys stationed in and around Coblenz, and from 2,000 to 4,000 are always on leave in the town. The Y.M.C.A. has taken over the big Fest Hall as a headquarters, where 2,000 men can see a show or attend a dance at one time. It also directs, at the request of the army, all the leave arrangements for the boys.

Nearly All Vessels Avoid Buenos Aires

By Associated Press Leased Wire
Buenos Aires, Sunday, May 4.—(Delayed)—Local shipping agents admit that vessels belonging to their lines are avoiding Buenos Aires because of the continuance of the labor boycott under the government's control of the port and shipping. A few vessels are entering the port and a few are enroute to this city but most of the latter are in ballast. Many of them are stopping at Montevideo.

The shipping agents recently sent the following cable message to London: "We recommend that the British government prevent the sailing of allied vessels for Buenos Aires until the Argentine government stops the practice of boycotting in this port."

"It is stated that Spanish shipping lines will soon join the maritime combination which includes the United States, British, French, Italian, Dutch, Norwegian and Swedish companies.

Lee County Second in Loan Campaign

Lee county took second honors in the loan campaign in Illinois, according to the Victory Revue, a publication in the interests of the Victory loan. In a story how the 7th district started the loan campaign the Revue says:

"Mercer was the first Illinois county over on the opening day. A. G. Bridgford of Alton is given credit for this quick start and first finish. Lee County came in second with \$1,032,300. Chairman A. P. Armstrong, of Dixon, made good his word. Mason County, under Chairman O. D. Covington, of Havana, easily rolled up \$715,000. McDonough, Chairman J. W. Bailey, of Woodstock, stood No. 4 in the list with \$1,063,993 taken in the first day or two of the drive."

POLO YOUTH WAS NEAR ASPHYXIA TION

Charles, the 15-year-old son of Mr. and Mrs. David Stauffer of Polo, had a narrow escape from asphyxia on Friday evening when he was overcome by the fumes from a leaking acetylene gas tank at the rear of their home, and only the timely discovery of his unconscious body in the pit of the tank by his father saved his life. The boy had gone out to look at the gauge shortly after supper hour and when he did not return to the house in a reasonable time his father called him. Receiving no reply the parent investigated, and found the boy unconscious in the pit. He called for help, jumped into the pit and in a short time neighbors responded and helped him get the boy out, while a physician, hastily summoned, succeeded in resuscitating him.

GRAND DETOUR PLOW CO. BASE BALL TEAM

The Grand Detour Plow company workers expect to have a baseball team in the field again this season and plans are now being considered as to the line-up for the team. The plow company team has been organized for several seasons and has played a number of good games. They expect to come out with a better lineup and to put in a more active season this year than ever before. A movement has been started to equip the team with uniforms this season, but nothing definite has been done on this proposition.

PLAN CELEBRATIONS.

The Sterling Association of Commerce has named a big committee and appropriated funds for two celebrations—one on July 4, in honor of every returned soldier of Whiteside county and the other to receive Co. E, which is a part of the 123rd P. A., when it returns home. It is expected the Sterling company will arrive within a few weeks and the Sterling people plan a big affair in their honor.

BIRDS USEFUL TO THE FARMER

SHORE BIRDS

To this group belongs the birds who have long legs and slender bills. They are usually seen on the shores of streams, ponds and lakes. However, most of them frequent woodlands, plains and prairies. While there are about 60 species, the principal ones are the sandpiper, killdeer, plover, woodcock and jacksnipe.

It is to be greatly regretted that these birds are rapidly vanishing from our country. This is due, partly to the fact that hawks, crows and vultures prey upon their eggs and also upon their young, but principally to hunters who kill them for food, not appreciating the service they render the farmer and the gardener.

Nine of the most common species feed upon mosquitoes and their larvae (wigglers). They also eat horseflies and other flies that are detrimental to live stock. They ravenously devour crane fly larvae, an insect that is very destructive to grasses and growing wheat. They eat grasshoppers, locusts, cater-

pillars, tobacco worms, tomato worms and weevil destructive to rice, alfalfa, clover, cow peas, cotton, grapes and sugar beets. They destroy the bill bugs—an insect pest of corn leaf beetles, cray fish and earth grubs that are destructive to garden stuff, corn and cotton. Plovers are especially destructive to cut worms and cabbage worms.

We cannot speak too highly of the economic benefit of the shore birds. They do not injure crops, but feed up on the worst enemies of the agriculturist. Hence, every means should be taken to preserve and protect them even to the extent of passing laws preventing the hunter from killing them.

THE MARTIN

The favorite diet of the martin is mosquitoes. However, it eats other flying insects found in trees and seed from standing weeds. The martin should be encouraged by building houses for it. A few houses will soon cause martins to come in great numbers. This bird has no faults and many virtues.

Government Plans to Abandon Ft. Sheridan

By Associated Press Leased Wire
Chicago, May 5.—The official order for the abandonment of Fort Sheridan as a military post was expected today along with the announcement that companies I and O of the 20th infantry are to join their regiment at Fort Riley, Kan. Nothing will remain, except base hospital 28 which is said to be one of the most complete in the country, and the necessary attendants.

In 1887 the ground on which the fort stands was owned by the state of Illinois. It was turned over to the government with the agreement that it was to be used for a military post. It was said that the reservation may revert to the state.

Commencement invitations should be ordered early. Teachers and pupils call at The Evening Telegraph office and see samples.

Ford
THE UNIVERSAL CAR

The Ford One Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat its head off" when not working. The aggressive farmer has only to consider the possibilities of the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them. Truck Chassis \$550 f. o. b. U. S. DEPARTMENT OF LABOR

ADVERTISING will develop the dormant demand for the goods on the shelves of merchants and in the warehouses of manufacturers.

Mr. Merchant and Mr. Manufacturer, the public wants and needs the things you have to sell and is willing to pay for them.

Tell your story through the medium of well prepared advertising. Talk to thousands through your local press instead of standing idly by waiting for something to "turn up."

Now, more than ever before, advertising offers greater assurance of profitable returns to live, wide-awake, progressive merchants and manufacturers who employ it.

The message of the Department of Labor is: Advertise-increase your advertising--so that selling costs may be reduced and ultimately prices will follow in reduction.

LEGAL PUBLICATION.

No. 189. NOTICE OF AWARD OF CONTRACT PUBLIC NOTICE is hereby given that the Board of Local Improvements and the Council of the City of Dixon, in the County of Lee and State of Illinois, at a joint meeting of said Board and Council, held in the Council Chamber in the City Hall, in said City of Dixon at eight o'clock in the forenoon, on Friday the 2nd day of May, A. D. 1919, awarded a contract for the furnishing of materials, labor and tools for, and the construction of, cement concrete curbing, cement concrete driveways, curbing, cement concrete roadways and a cement concrete roadway pavement in Everett Street, as provided in Local Improvement Ordinance No. 183, Series of 1918, to Gund Graham Co.

That said Gund Graham Co. was considered by said Board and Council to be the lowest responsible bidder, who submitted a proposal to furnish all materials, tools, machinery and labor for the construction of said improvement. The prices at which said Gund Graham Co. was awarded said contract is (approximate quantities) 2050 linear feet of cement concrete curbing at Sixty (60) cents per linear foot;

5755 square yards of cement concrete roadway pavement at One and 58-100 Dollars (\$1.58) per square yard;

26 cement concrete driveways of 60 square feet each at Fifteen Dollars (\$15.00) each, and

1 alley driveway of 160 square feet at Twenty cents (\$.20) per square foot, or Thirty-two Dollars (\$32.00) complete.

That said Board and Council will on or after the 15th day of May A. D. 1919 enter into a contract with the said Gund Graham Co. to furnish all tools, machinery, materials and labor for said improvement, unless the requisite number of property owners or their agents, shall within ten days after the first publication of this notice, enter into a written contract to do the whole of said work at ten (10) per centum less than the price at which the same has been awarded and commence said work within thirty days after such publication and prosecute the same with diligence.

Dated at Dixon, Illinois this 3rd day of May A. D. 1919.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

City subscriptions MUST be paid in advance at this office or subscribers must pay the carrier boy each week. If you wish the paper continued take care of this little matter.

CORN CONTINUES TO ADVANCE; WET WEATHER CAUSE

By Associated Press Leased Wire
Chicago, May 5.—Fresh upturns in the value of corn resulted today from continued wet weather which made both hauling and planting difficult if not impossible. On the new advance, July delivery touched the highest price yet this season. Profit taking sales, however, led subsequently to something of a reaction. Opening figures, which ranged from 1/4 to 2 3/4 higher, with July 1.69 1/4 to 1.71 and Sept. 1.65 to 1.66, were followed by moderate additional gains and by rallies from the ensuing setback.

Oats were stronger with corn. After opening 1/4 to 1 1/2 c. up, including July at 72 1/2 to 73 1/4, the market remained comparatively firm.

Provisions rose on account of bulges in grain and hog values. Selling was of only a scattering character.

A sensational break in prices took place just before the close as a result of heavy selling and of a sudden lack of all support. The extraordinary change in the temper of the market was due to announcements from Minneapolis that the United States government had arranged to import wheat from Canada, and that a downward revision of prices of foodstuffs was anticipated. In the flurry, the extreme fall of values was about 12c, but the market also reacted with great abruptness. The close was excited, 3c to 5c net lower, with July 26 1/4 to 26 5/8 and Sept. 160 to 160 1/2.

Wheat News Breaks

Corn Price 10 Cents

By Associated Press Leased Wire
Chicago, May 5.—The new fungus disease "take all" or "foot rot" is responsible for destruction of two fields of wheat in Porter county, Ind., according to advices received here by B. W. Snow. The Porter county disease is said to have been diagnosed by scientists from Purdue university.

The first notice of the pest in this country was received last week from Madison county, Illinois.
